ELSEWHERE meaning EVERY WHERE!

Pascas Foundation is to establish administration centres within every country that it is welcomed into, to support local residents in the provision of the opportunity for its people to consider the embracement of the innovations and revelations that Pascas is able to share. For those who consider these possibilities, the potential of living feelings first, the New Way, and having our minds to follow in support, in contrast to how humanity has lived for thousands of years, prosperity, harmony and peace is possible.

Never before in the history of humanity has this opportunity opened to all people - not until the events of 2022. Pascas is not about repeating the ways of old, it does not provide what others are already doing and failing in their endeavours. Pascas is about the potential that is within us all, to enable our natural intuitiveness and ingenuity to be realised, for our true potential to be freed and our true personality to be expressed.

Pascas Foundation embraces the support of ECO SDG and stands with ECO SDG in the delivery of Sustainable Development Goals with the revelations and innovations that Pascas is to share. We look to bring to the communities of the world the opportunities of prosperity, harmony and peace that are now a real possibility.

We thank ECO SDG for their support and look to collaborate with them worldwide.

Yours sincerely

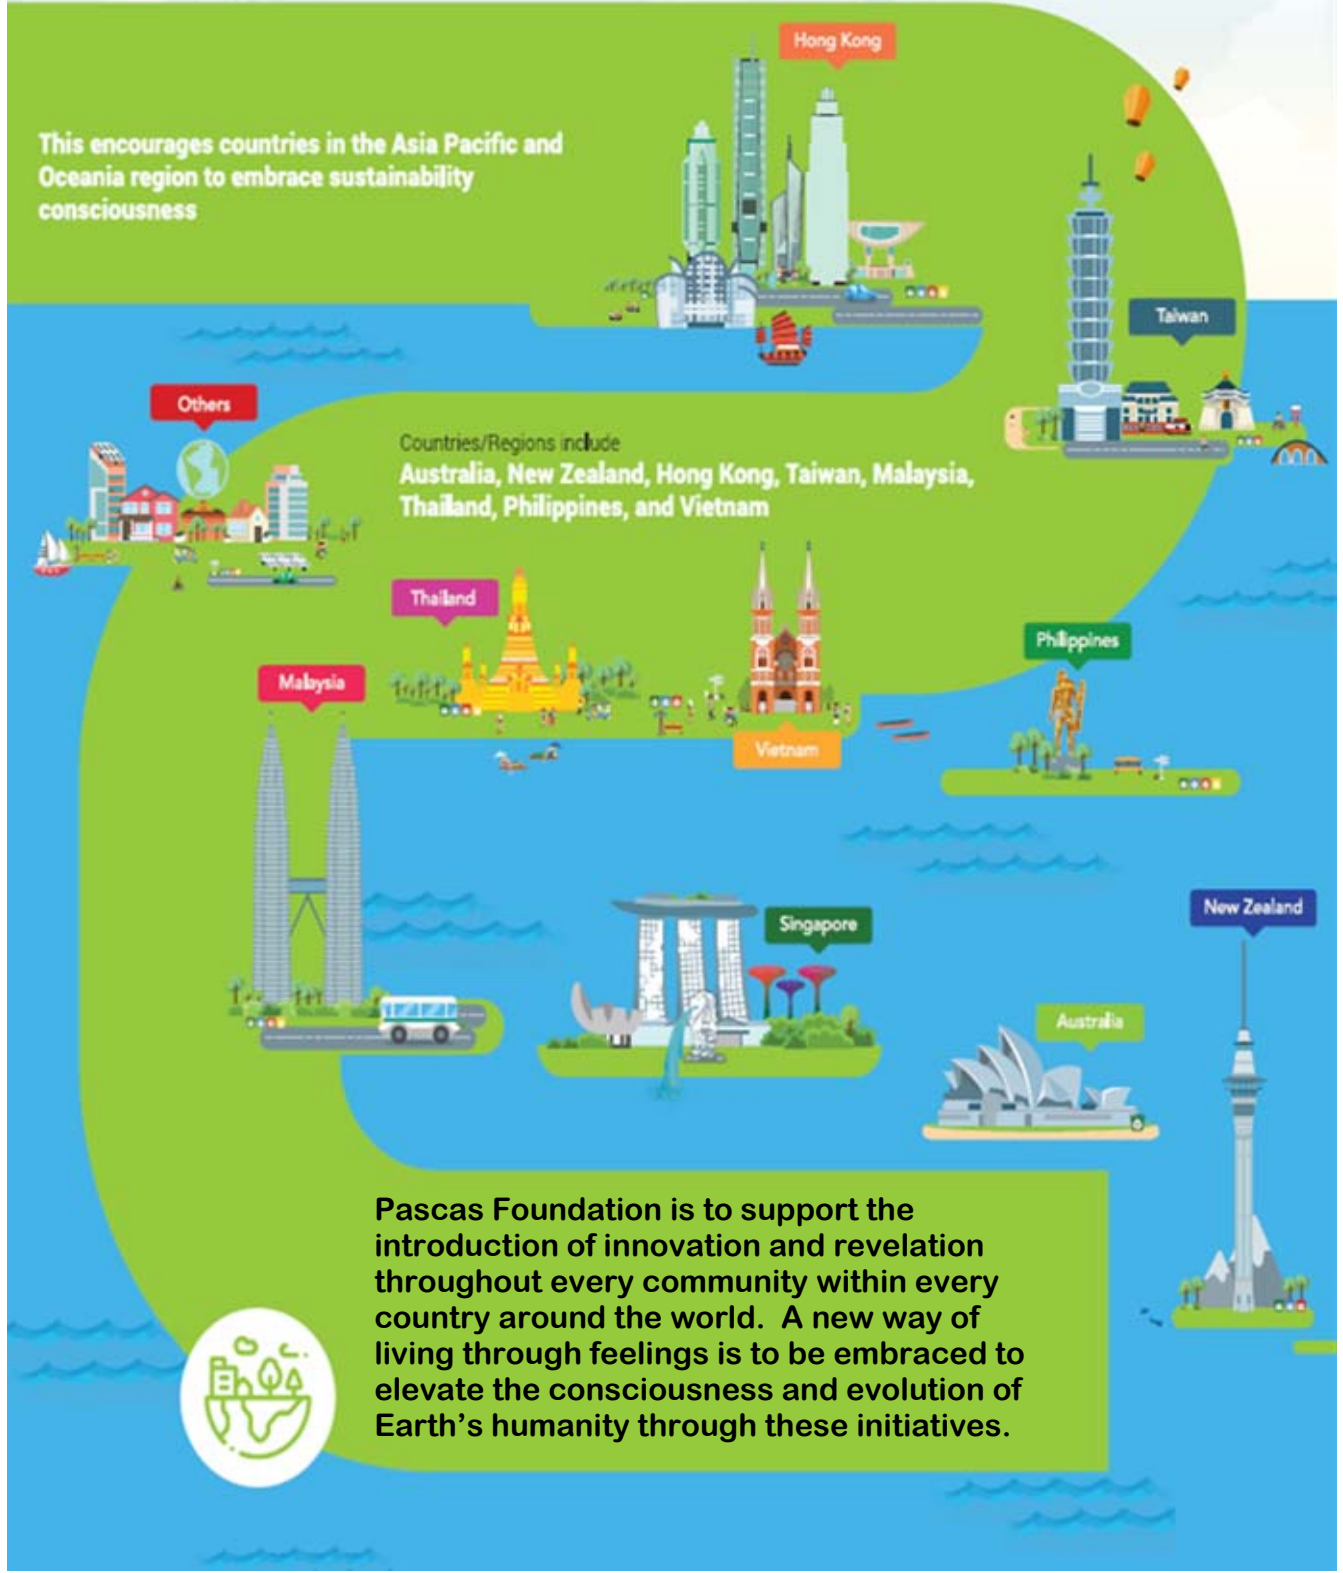

John E Doel
