THE PRODUCT:

Pascas Care has melded western allopathy medicine with complementary traditional therapies and medical practices to deliver a global platform with profound capabilities in all communities and especially those regions suffering from pandemics such as HIV / AIDs, tuberculosis and malaria.

Pascas has been able to qualify and quantify practices and practitioners by employment of kinesiology muscle testing which is a universal test of extraordinary reliability as to the level of truth and efficacy of what ever is involved. In this way, Pascas has at its disposal extraordinary medical and health care capabilities.

Pascas is not pharmaceutical dependency based. Its primary capabilities come from unique natural therapy initiatives which are frowned upon by the drugs and pharmaceutical companies – possibly due to the potential loss of profit for them.

Alternative medicine / complementary therapies are said to be a gentle / softer form of medicine whereas western allopathy medical practices are often harsh and at times seem brutal. Each has its place. Through Pascas Care, they work hand in hand.

Pascas Care may have available to it, methodologies in HIV / AIDs management, such as:

- Vaccines which prevents the progression of HIV to AIDS and various viruses.
- Edible vaccines to be available for malaria, tuberculosis and various viruses.
- Ozone technologies which kills most viruses including HIV.
- Complementary therapy methodologies which are extraordinary in health care management.

A Pascas Care Centre is a community medical centre. It attends to the full spectrum of what is required in any community. However, it is specifically expanded in capabilities to provided for treatment of life threatening episodes. These capabilities require the provision of day bed treatment of up to 3 hours per visit, in delivery of treatment. These services can deal with most life threatening diseases.

It is planned to open some 4,000 Pascas Care Centres by the end of the tenth year. These clinics will be established in more than 40 countries around the globe.

THE COMPANY:

Pascas Care being founded in 2010, has its administration jointly located on the Gold Coast in Queensland, Australia.

Principal directors have developed this opportunity over two decades.

MARKETS & COMPETITION:

The “for profit” drugs and pharmaceutical companies are doing whatever they can to frustrate the lower cost and much more effective alternative therapy and medical options that Pascas is to deploy.

The market of some 40 million folks known to have HIV / AIDs is only a fraction of the market when added to malaria, tuberculosis, avian bird virus, SARS and a host of other diseases such as cancer.

- **HIV, TB, Malaria and various viruses. These three diseases cause over 300 million illnesses and more than 5 million deaths each year.**
- **None of these diseases have an effective vaccine to prevent infection in children and adults.**

WHAT IS SPECIAL ABOUT THIS BUSINESS?

It is the incredible people that will work within the Pascas Care Centres all around the globe. These special people are personally driven to help others and it is their care and love that achieves the results that we all aim for.

Goals of Pascas Care are lead by our desire to:

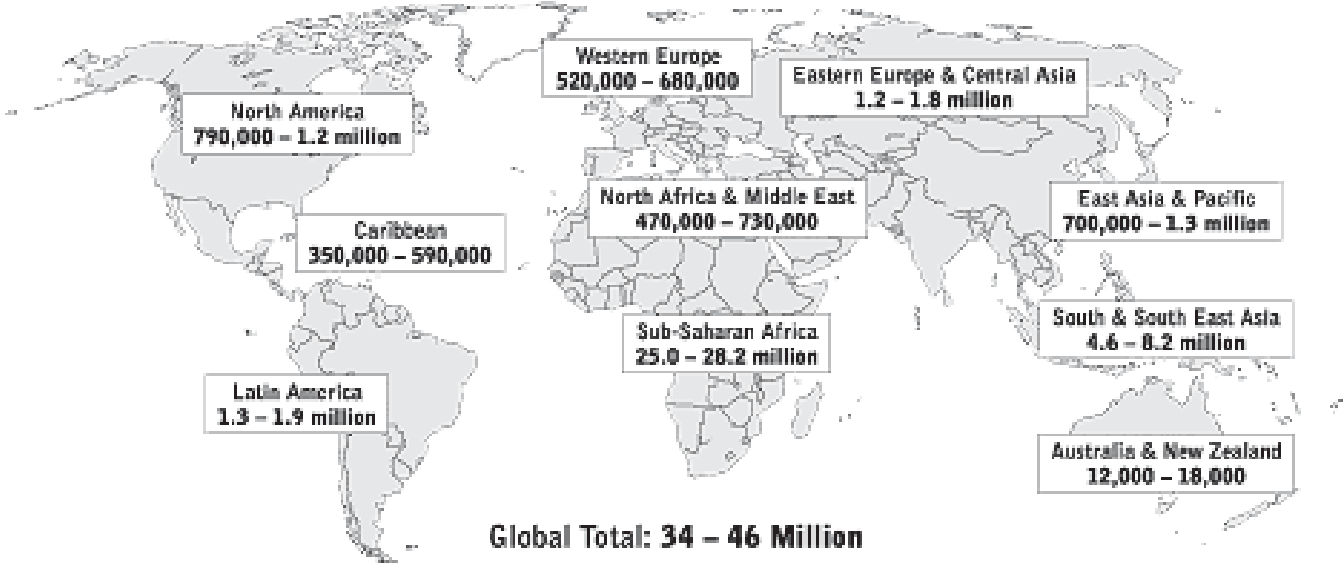

Treat the cause rather than the symptoms, this is the focus of Pascas Care.

P.7 Pascas WorldCare – and 500 + Years!

Further stated policy, Pascas Care – Kids of the World:

The agenda is to treat the cause, not the symptoms as well as to bring gainful employment and prosperity into the community which Pascas serves.

By living true to ourselves, true to our feelings, we are living true to God. It's that simple.

“All dis-ease is mind generated, and all healing is generated by the love energy of one’s soul.”

The Ego (mind based) manifests illness; the lower one’s level of consciousness (soul condition) then the more prevalent will be illness. Below the levels of 200, the ego and fear of the mind dominate; however, as you raise your level of consciousness by growing in love and achieve a level of 500 or higher, you begin to transcend ego dominance. At the level of 600, all healing is possible.

To liberate one’s real self, one’s will, being one’s soul, is begun by embracing Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we’re feeling them, express them fully, all whilst longing for the truth they are to show us.

PASCAS CARE CENTRE

PASCAS CARE CENTRES:

TOTALCARE HEALTH CENTRE & CLINICS

Primary agenda is the provision of capabilities for the expansion of:

- ✓ Support for dental services.
- ✓ Support for eye services.
- ✓ Support for inoculation programs.
- ✓ Support for family planning programs
- ✓ Support nutrition education programs.

Principal clinics to be established in the major centres of each province with provision for Telemedicine units to be deployed throughout the provinces. All clinics and Telemedicine units are to be supported by satellite links to the major Pascas Health Sanctuary, centres of excellence, in Australia and the Bahamas, and subsequently in South Africa.

Specific support will be directed to the management and treatment of HIV / AIDS, malaria and tuberculosis.

Pascas Care is bringing a focus to treating the cause rather than just treating the symptoms of disease. Pascas Care is about wellness and well being of humanity on a global basis.

PASCAS CARE is a holistic complementary health and alternative medicine clinic melding the excellence in allopathy (Western) medicine with the proven techniques of many traditional therapies, developed over aeons.

Hierarchy of Holistic Medical Services

Remote Areas:

- Telemedicine via call centres supported by the medical teams at each of the Centres of Excellence in the Bahamas and Australia, and subsequently in South Africa. These Centres have alliances with world renowned medical units around the world that will be accessed as and when required.
- Telemedicine Kiosk: Through satellite communications, the kiosk enables remote access to Telemedicine diagnosis and treatment. The Kiosk features diagnostic camera, three lead ECG, retinal scanner, a camera for video-conferencing, video screen, vital signs measurement and a defibrillator. Should the Kiosk (being a laptop unit) be unable to communicate with the greater network, in-built diagnostics are able to provide rudimentary analysis of results.

Rural Areas:

- Medical Clinics may consist of as few as one Clinician. However, he/she has satellite broadband communication linkage to the core centres within the network.
- Third world remote clinics will focus on:
 - Pre-natal / post natal services.
 - Immunisation
 - Dental
 - Eyes
 - Nutrition

Urban Clinics:

- General Practitioners / Physicians will be supported by visiting specialist:
 - Obstetrics & Gynaecology
 - Orthopaedics
 - Dermatology
- Supporting units will incorporate:
 - Pharmacy
 - Optometry
 - Physiotherapy
 - Radiology

Integrative Medicine, which incorporates natural healing methods to improve and/or restore function. allows medical practitioners to combine successful natural and complementary therapies within the framework of orthodox medical training, to provide better clinical results with less invasive therapies.

Thus, there is a progression in size and complexity within the satellite health and healing units that can be anywhere in the world, all being linked back to the Pascas Centres of Excellence.

**Feeling
Healing with
Divine Love is
the key!**

HEALTH DOME:

The **Health Dome** needs to be viewed internally as a hologram.

Each health modality interconnects and is complimented and supported by each and every other health modality.

No one process or practice is an exclusive solution.

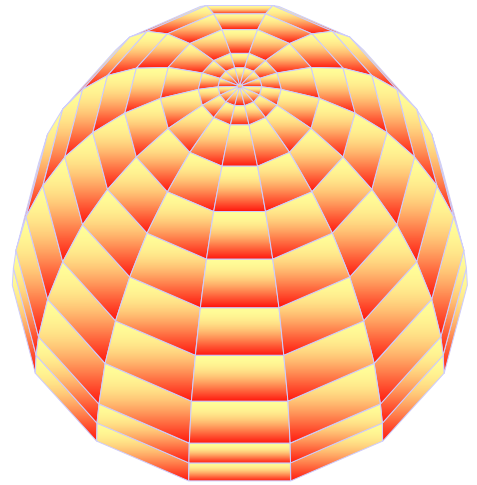

If you were to say that one practice or solution stands out above and beyond all others at the pinnacle of the **Health Dome** then that would be Love and Forgiveness.

The basic malady found in people is self-hatred. Self-hatred is the basic inner illness in all of us, but just how that self-hatred and non-acceptance of the self manifests, is shown in our different character structures. As we work to understand our dynamics on a daily level, we can learn to accept ourselves through this process. Self-love is the greatest healer, and self-love also requires daily practice.

The broad view of the healer encompasses the totality of the human being. In healing there is no separation between body and mind, emotions and spirit – all need to be in balance to create a healthy human being. The healer focuses on physical, psychological and spiritual malfunction. It is impossible to do healing without affecting the psychological levels of the personality. The more the healer understands the psychodynamics of his/her clients, the more the healer will be equipped to help the clients heal themselves.

Finding the initiating cause of an illness is always a key part of healing.

The objective, from within the Pascas Care Dome, is to treat the cause much more so than just treat the symptoms. Re-occurrence of many illnesses are due to the non-treatment of the cause.

HIERARCHY of HEALING SYSTEMS

ALLOPATHIC – Western Medicine treats the symptoms, is highly regulated and costly as it is cost driven.

ENERGY HEALING – Eastern Therapies also treat the symptoms with the assistance from natural love spirits from the realms up to the 6th sphere.

Therapy applied to the spirit body is through an energy therapist who may work on the chakras, whereas a chiropractor works on the physical body. Such types of therapy deal with the effects and ignore the soul and the causes.

EMOTIONAL PROCESSING and CLEARING deals with the cause. Soul level clearing and growth provides permanent solutions whereas the other two systems provide temporary relief.

If you focus on the soul, that is the most powerful tool to improve yourself.

EMOTIONAL EXPRESSION:

‘Weeping and whacking’ rooms, OR ‘talking it out’ rooms, are to be available within each Pascas Care Centre and any of the associated activities of Pascas WorldCare.

The room, by its very nature, is required to be sound proofed. This requires double glazed, if not triple, windows, walls lined with sound retardant material and doors sealed to prevent the transfer of noise.

Emotional Expression:

- Teaches you how to release and prevent negative feelings like fear, anger, hatred, jealousy, inadequacy, sexual issues, or depression from contaminating your life and relationships.
- Shows you how to manage your life so you don't create more negative feelings that become trapped in your soul, building up and creating the pain within your physical body.
- Gives you a highly effective consciousness-based EAST/WEST self-therapy system that releases deep, trapped, inherited negative feelings.
- Enables you to work on your emotional self as part of your spiritual practice and soul growth.
- Empowers you to use negative feelings for personal growth.
- Provides you with powerful experiential guided sessions that train you in how to apply these principles and initiate deep transformational releases.

Emotional expression may be used alone or with: all yogas, pain body, meditation, energy psychology, 12-step, all healing modalities – however sharing with a friend is paramount.

You just need to release the negative feelings / emotional blocks inside that you think the external things will be made better. But the amazing thing is that as you start to release negative feelings by going inside and working with them, you also start to **release the BLOCKING** that has been preventing you from achieving outer goals!

You find yourself more easily achieving outer goals, as if they are just being **brought to you**, and at the same time you become less compulsive about attaining the outer goals.

FEELING HEALING + SOUL HEALING

To heal one's self is to simply look to see what feelings we are refusing to let ourself feel, and accept them instead of denying them. And to fully accept them, one needs to express them, speak about them, let them have their say, rather than pushing them aside, refusing to let them make you feel bad.

Doing this all with the intention of seeking the truth of why you are feeling them, of speaking about and expressing all such feelings; all feelings you have, but ALL WITH the INTENTION of UNCOVERING the TRUTH THEY WANT YOU TO SEE ABOUT YOURSELF. And it's the wanting to see the truth of them that is very important, because if you just look to accept them and speak and express them, but not seek their truth, then that's all you'll be doing, speaking and expressing them, but not healing their causes, so not fixing the things within you that are making you feel bad. And it's the truth part of it, seeking the truth of your feelings, and so, seeking the truth through your feelings, that's vitally important. It's the truth of yourself, life, nature and God, that is the spiritual aspect to it all.

You CAN'T find the truth of yourself, or anything else, through and with only your mind. You HAVE to engage and look to your feelings. And so if you choose to allow your feelings to 'Show You the Way', then the truth will come as you express them. So to do our Soul-Healing consists of these steps, all of which are ongoing until it's done:

- **Admit you are feeling bad.**
- **Accept your bad feelings, identify what they are.**
- **Honour fully your bad feelings by expressing them, speaking about them to someone who is willing to hear you talk about them, or tell them out loud to our Heavenly Parents. Long for the truth of them. Long for the truth of why you feel bad – what deep within you is causing your bad feelings?**
- **And remember, bad feelings are Good! Not bad. They are not to be despised. And as hard as it is to accept them, they are still you, and a very real part of you. And if you persist in denying them and not allowing yourself to fully live them, then you are only going to keep yourself in your errors making things harder for yourself.**
- **All sickness and suffering, all bad things that happen to you, all your problems, all your addictions – your whole feeling-denying and untrue life, is all caused by your denial of bad feelings.**
- **Every problem in the world is brought about because everyone has been brought up to deny feelings, and in particular, most of their bad ones.**

If one is intent on spiritually evolving and growing in truth, then it's vital, and this is the key, that one looks to use one's feelings as the means to gain and have access to the truth of oneself. You CAN'T find the truth of yourself or anything else through and with only your mind. You HAVE to engage and look to your feelings. And so if you choose to allow your feelings to 'Show You the Way', then the truth will come as you express them.

Doing your Soul-Healing with the Divine Love, is really doing your 'Feeling-Healing'. We are designed — created — to be self-revealing of truth, and so we are all to uncover the truth within ourselves and for ourselves, and all being done by living true to our feelings. **If you accept, express and seek the truth of your feelings, then truth will come to you, and you'll grow spiritually. It's as easy as that. Also it is as easy as it is to long for, ask for and receive Divine Love.**

Feeling bad is Good! It's okay to feel bad.

Feeling bad is good.
 Feeling bad is GOOD!
 It's not bad to feel bad – it's good.
 FEELING BAD IS GOOD!
 Very good!!!

And feeling really bad is also good.
 And feeling worse is even better.
 It's all very good!
 It's okay to feel bad.
 Bad feelings are okay.
 It's good to feel bad.
 Bad feelings are GOOD!

It's good to feel bad about feeling bad.
 Your bad feelings are YOUR feelings.
 YOUR bad feelings have a right.
 A right to exist.
 A right for you to feel them.

Your bad feelings are a part of you.
 Bad feelings are good and they are your feelings!
 ACCEPT THEM!

It's okay to feel bad, there is nothing wrong with feeling bad.
 You might not like feeling bad, but it's okay to feel bad.
 You are allowed to feel bad. Give yourself permission to feel bad.
 Bad feelings shouldn't be dismissed.
 Bad feelings already feel unwanted, why make them feel more rejected?
 You are your bad feelings – if you reject them, you are rejecting yourself.
 Why are you rejecting yourself? Why are you rejecting your bad feelings?
 Is this how you want to live – rejecting a natural part of yourself?
 Is this how you want to live, rejecting your bad feelings?

Feeling bad is normal. We all feel bad. We all feel bad a lot of the time, even if we won't admit it, or even if we're not aware of it.
 There are many bad feelings, all sorts of different bad feelings, and they are a normal part of you – of everyday life.

Bad feelings – your bad feelings – are to be welcomed. Bad feelings are to be wanted. Bad feelings are to be accepted.
Bad feelings are to be loved.

If you ignore or deny or dismiss or reject your bad feelings, what are you really doing? Denying, dismissing, rejecting yourself. Is this what you want to do? Because if you do, you'll only make yourself feel even worse.

You are your bad feelings – Your bad feelings are you.
Bad feelings have just as much right to life as good feelings.
Be true to your bad feelings – acknowledge, honour and accept them!
Accept your feelings.
Accept yourself.

So Remember:

Feeling bad is Good! Accept your bad feelings.

The full acceptance of your bad feelings, and the seeing of the truth they are trying to show you, comes from having expressed – spoken – about them. And speaking about them to someone who cares about you: a friend.

As you vent your feelings, the pent up ‘bad’ energy goes, often leaving you with the understanding of what they are all about: why you are feeling them. And once you understand and know this truth, then you are healed and free of them.

As young children we were all stopped from freely and fully expressing all our bad feelings. Things were done to us, we were forced to behave in ways we didn't want to, all of which made us feel bad. But we couldn't complain about how unjustly we were being treated. We tried, but often only to be met with harsher rejection treatment.

As adults we still have all this bad treatment going on within us. We formed patterns when we were young based around all the negative unloving parenting we had. And now being unconscious of these patterns we still (also unconsciously) expect bad things to happen to us to make us feel bad – and to feel just as bad as we did back then. And so bad things do happen. And we do feel bad.

So as an adult, we are experiencing life in the moment now as the adult, together with all we felt back when we were young, only we are unaware of it. Something will make us feel bad, and on the surface of it we might know why we are feeling bad, yet underneath, deeper within us, it will key into and trigger repressed bad feelings making us feel even worse in the situation than we might have otherwise felt.

So in doing our Feeling-Healing: healing our repressed childhood bad feelings through the feeling-experiences of our current adult life, we need to use every bad feeling to help take us back 'down' inside

ourselves, to connect with what made us feel the same bad feeling when we were young.

We are our bad feelings, and like them, WE ARE STILL WAITING TO BE HEARD.

The honouring, accepting and expressing of our bad feelings is our attempt to speak up and finally be listened to: to be accepted and loved – not rejected. And as an adult we can now do this, whereas, a child we could not.

And so if you no longer want to feel bad then through complete self-acceptance is the ONLY way to heal yourself – allowing yourself to feel as bad as you do feel. If you don't feel good about anything in your life or about anything to do with yourself – if you have one bad feeling at all, that feeling or bad thing will somehow be connected all the way through you to your early childhood. And so simply, if you feel bad about anything, if you are sick or don't like any aspect of yourself or your life, it's all because of how you were treated during your early childhood, and it's still going on deep within you. Your childhood has ended but the resulting mental and will patterns that dictate to a high degree your emotional and feeling state are all still in existence, still unconsciously controlling you. And because you are denying yourself the knowledge of these patterns, so too are you denying yourself the resulting feelings from them – all your bad feelings.

When you see the truth, the whole truth of your negative self-denial state, then with your will you can stop living in rebellion against yourself and choose to live positively. And in that choice you are healed.

The aim of Feeling-Healing

The real aim of doing your feeling-healing is to perfect your relationship with yourself, with others, with nature, and in the end, with God.

Until we are living true to all our feelings and living wanting to grow in truth from our feeling experiences, we can't live a perfect relationship. If we live denying any part of our self we can't have true relationships.

Until we accept all of those parts of us we're denying, and understand why and how our denial came about, we can't live as our soul desires us to, as we have been created to live.

And when we do honour all our feelings and live the truth revealed by them, then naturally without any effort or mind control we'll just be perfect.

Many people try to seek God, try to understand the Greatest of all Mysteries before they try to understand themselves. We will never be able to understand or relate properly to God until we can understand and relate properly to ourselves. We come first. We have to learn how to fully honour and totally accept ourselves and then we can move out into the world and greater universe.

We are to be true to our soul by living true to our feelings.

To want to live true; true to how you feel, is to want to be perfect.
And your feelings are the way.

WE are meant to grow up LIVING FULLY CONNECTED to our FEELINGS:

Humanity has always had an awareness and involvement with spirits, with life on the other side, because we are all heading that way, we all end up dying and becoming one of the spirits, and were humanity living rebellion-free, then nearly everyone would enjoy some level of spirit involvement either directly or indirectly, loving such an expansive awareness in life.

We are meant to grow up living fully connected with our feelings in our physical reality, and at the same time with full feeling awareness of spirits and life after death, because after all, God is the greatest Spirit of us all.

And so having an awareness and involvement with spirits can, and should, help us have more of an awareness with our Mother and Father. And it's not with just spirits, it's also with the angels who are with us all the time, and the nature spirits should we be open to them, and even higher spirits if we are to work with them, such as the Melchizedeks or Trinity Teacher Pairs. But mostly for those people involved with the Divine Love, it will be with the Celestials spirit group that is assigned to help them.

It is very important to understand that spirits and spirit life is meant to be part of life on Earth. However that's not to say everyone need to have an ongoing relationship with their spirit friends, but they can at least still be aware of spirits and spirit life and where we will be going and something about what to expect once we die. And when you are open to it, lessening the grip of one's fears about it, then we will find it will be just another aspect or level of life, and one that can give us quite a lot of comfort.

The New Way, Feelings First Spirituality
 Learn to live with God through your Feelings

Accept, express and long for the truth of your feelings

Be free in your feelings
 Free your feelings from your mind's control
 Live true to your feelings; your feelings are your true self
 Live true to yourself through your feelings

Live true to yourself by living true to your feelings.
 Long for the truth of your feelings.

Accept / Express / Bring out ALL of your good, and most importantly,
 BAD feelings.
 Want to understand why you're feeling them.
 Use your surface feelings to take you deeper into your repressed and
 hidden feelings.

The Feeling Way is the True Way.
Your feelings are your spiritual guide.
Your feelings will take you to God.

Your feelings will show you the truth of your relationships, including your relationship with God; and if anything is wrong, untrue and unloving, then why it is.

Our feelings are sacrosanct and we should respect them accordingly. And we should NEVER block them out, ignore, override, banish, deny or reject them, because if we do, we're only doing that to ourselves, as Our Feelings Are Our Self.

Our feelings are the gateway to our soul. Our feelings are the closest we can get to our soul. Knowing the truth of our feelings is knowing the truth of our soul, and knowing the truth of God.

Feelings First Spirituality is the True path for humanity.

It embraces all people.

It completely unifies the world.

Everyone can relate to everyone else through their feelings.

And we can all live the truth that comes from our feelings, all sharing the same truths as we express and have the same feelings.

No one need be left out; no one is more special than anyone else – we are all united in Truth through our feelings.

So with and through our truth we live our lives, therefore without the need of any man-made mind-laws, rules and restrictions that limit self-expression as inspired by our feelings.

The New Way, Feelings First Spirituality is what is to replace all man-made, mind-contrived religions that so many people have enslaved themselves to. The New Way, Feelings First Spirituality will set us free of all that control, ending the Rebellion and Default within ourselves as we do our Feeling-Healing, and ending such control and spiritual stagnation in the world.

Bring on the End Times – get it over and done with! Let's all see that Jesus is not going to come again, that Prophecy has failed all the mind-controlled platforms. Allow such false systems of belief to die their long-awaited natural death, they've overstayed their welcome, it's now time they fade away. So let us show such antiquated, erroneous systems of belief the exit and bring on the fresh liberation of discovering the truth of how we are to live for ourselves, each of us personally in our lives, and all by looking to our own feelings for it. Self-revelation through our feelings is the way to go.

The Way of the Mind is ending, and is really the End Times – the End of our mind control, and **it's about time!** With the Way of our Feelings replacing it.

The End Times means the end and therefore a New Beginning. And that new beginning is a whole new Spiritual Age – an age based on self-revelation of truth through one's feelings, coupled with and supported by higher revelations from the Celestial spirits, angels and nature spirits.

The Feelings First Spirituality is the True Way to God because it helps you get to know God, helping you to reach out, connect and be personal with God, and do God's Will, all through your feelings. It is the only true way of getting to know the God of Feelings – our beloved Heavenly Mother and Father, the Great Soul of Divine Love.

Love comes through our feelings and not our mind, as we've all been wrongly led to believe.

Feelings First; then comes The Truth; then comes Love.

LOVE is the Religion of Feelings, being:

- Enlightenment, Nirvana, feeling all-loving;
- All false, mind-contrived. Anti-truth, anti-love;
- Still evolving the Rebellion and Default within yourself;
- Feeling and believing you are the Superior One;
- Living with your mind in control of your feelings;
- Living rejecting all your bad feelings;
- Living with your mind contriving you feel loved;
- Rejecting the Divine Love.

 Living the Rebellion and Default.

Hell:
 Exploiting the Rebellion and Default.

The Feelings are the doer; the Mind the teller. So we are to go with our feelings, which we can't be told to do with our mind. So the longing for the Divine Love, doing our Healing by expressing our feelings and longing for their truth, are all feelings and doing it with longing. Whereas the mind just wants to tell us what to do and how to be, no feelings in it, all how our parents have treated us.

STREAMERS (DIAGNOSTIC SPECIALISTS):

The **STREAMER's** function is to assess what services and to whom a patient should be referred to and ensure that the required services will be available and when. Their duty is to ensure a high standard of usage as well as a high standard of medical service is provided. They should initially assess the patient and reassess after treatment course.

Patients approaching the Centre may:

1. Seek a consultation with a Diagnostic Streamer.
2. The Diagnostic Streamer may elect to manage the case or seek support from other Diagnostic Technicians.
3. Should other Diagnostic Technicians be invited, then the agenda is to have the patient meet all the Diagnostic Technicians at the one time.
4. The treatment plan for the required treatment is mapped out with the Diagnostic Streamer appointed to manage the plan in collaboration with the patient.
5. The Diagnostic Streamer would then appoint the Technicians for the delivery of the various elements of the treatment plan.
6. Monitoring and overseeing of the treatment plan delivery is the responsibility of the Diagnostic Streamer.
7. At the end of the delivery of the treatment plan, the outcomes would be reviewed and assessed in accordance with Total Quality Management (TQM) regimes and for the purpose of research and review of the efficacy of the treatment.

A prime consideration for the patient in attending the Health & Healing Centre is to be afforded the opportunity to have access to the majority of core modalities and specialists at the one time. Thus reducing the number of visitations and the anguish of numerous trips and waiting episodes.

It is for the patient to take control and manage their own healing. By doing so, outcomes are significantly enhanced.

The **Pascas Care Health Matrix** melds allopathy (western) medicine with complementary (alternative) therapies with continual blending of advanced practices and sciences, all contributing to the objective of treating the cause more so than the symptoms, with the patient being responsible for their own health management programs.

Pascas continues to draw on new practices, innovations, sciences and protocols to support health management programs and deal with diseases that are decidedly difficult to manage – all with a focus of delivering services in remote and emerging economies.

The following information is a general introduction into various styles and systems of holistic health management – all practices have something to contribute. It is **Pascas's** agenda to focus on those practices with the highest level of efficacy and appropriateness for desired health management programs.

Through the diagnostic streamer, patients / clients are able to obtain an understanding of the health care programs available and resolve the program to be supported by the management of the streamer and his team.

PASCAS PRACTITIONER BENCHMARKING:

Kinesiology muscle testing with relation to the Map of Consciousness as developed by Dr David R Hawkins is an effective method for determining the capabilities of practitioners as well as treatment programs for individual patients / clients.

In medicine, the accuracy of diagnoses as well as the efficacy of a prescribed treatment can be tested. The technique is also valuable in psychological issues where the etiology of a disorder can be quickly ascertained. One currently controversial subject of investigation that obviously suggests itself is the so-called repressed childhood memories of alleged sexual abuse. Facts can be quickly differentiated from false “memories” elicited in response to suggestion. Freud concluded that most reports of childhood incest he encountered were of hysterical origin.

Kinesiologic testing can be used to back up clinical judgments as well as scientifically controlled investigation, because it can transcend built-in design limitation of double-blind research, which can of itself create the very error it is supposed to prevent. Statistics are no substitute for truth and in the complexity of bio-behavioural phenomena, proximal antecedents can too easily become classified as ostensible causes. The real “cause” may well be the pull of the future through a hidden attractor field.

Alignment with high energy attractor patterns results in health; with weak ones, in disease.

The human central nervous system clearly has an exquisitely sensitive capacity to differentiate between life-supportive and life-destructive patterns. High power attractor energy patterns which make the body go strong release brain endorphins and have a tonic effect on all the organs, whereas adverse stimuli, which release adrenaline, suppress immune response and instantaneously cause both weakness and enervation of specific organs, depending on the nature of the stimulus.

It is this clinical phenomenon upon which treatment modalities such as chiropractic, acupuncture, reflexology and many others are based. All of these treatments, however, are designed to correct the results of an energy imbalance; unless the basic attitude which is causing the energy imbalance is corrected, the illness tends to return.

Generally speaking, physical and mental health are attendant upon positive attitudes, whereas ill health, both physical and mental, is associated with such negative attitudes as resentment, jealousy, hostility, self-pity, fear, anxiety, etc. All stress is internally generated by one's attitudes.

Every detail of the belief system that we hold has consequences for better or for worse. It is for this reason that there is no condition that is incurable or hopeless; somewhere, sometime, somebody has recovered from it through the process we have described.

Kinesiological diagnosis is a science in its own right, governed by the International College of Applied Kinesiology. Each organ of the body has its corresponding detector muscle whose weakness signals pathology in the corresponding organ. Kinesiology is already widely used to confirm both diagnosis and the efficacy of a probable therapy. The right dose of the right medicine can also be determined by the patient's kinesiological response. Similarly, allergies can be detected, and the need for nutritional supplements may be determined.

Power vs Force by David R Hawkins, MD, PhD – the Hidden Determinants of Human Behaviour
 ISBN: 1-56170-933-6 published Hay House Australia Pty Ltd www.hayhouse.com.au
 Or www.veritaspub.com for the trilogy Power vs Force, The Eye of I, and I, Reality and Subjectivity.

Compassion is one of the highest of all energy attractor power patterns. It is those physicians / doctors who exude compassion and possess an exceptional high level of consciousness achieve extraordinary high levels of success in treatment of patients.

Holistic medicine has reintroduced the inclusion of the multi-factorial elements as being crucial to the healing process, so the consciousness of both the patient and physician is included in the overall process.

Holistic approaches operate from a different context of the nature of human consciousness than does traditional medicine, and it places an emphasis on healing rather than treating. While their connection with the theoretical breakthroughs of recent decades may not appear explicit, the ultimate therapies employed by holistic practitioners, however widely different their approach and method, all have one common element in that they are all based on techniques to influence not merely protoplasm as such, but the energy fields of human consciousness which surround, course through, and condition the human body.

Paul Hammer kinesiologically tested for the "LoC" (level of consciousness) of practitioners and practitioner groups of Orion Healing / Theta Healing. This healing platform is based on True Prayer.

The upshot of various testing seemed to indicate to Paul that most of the practitioners fell into the Level of Consciousness (soul condition) range **570 – 670**.

His observations being that with a few exceptions, the higher your LoC calibrates into the 600s, the more adept the practitioners will be at making the connection and being successful at Orion Healing.

580 – 590 seems to be the cut off point. And people who calibrate below this level may struggle. And 600 seems to be the level where one can start doing it professionally.

Thus exceptionally successful health care providers calibrate at or over 600 on the Map of Consciousness.

It is anticipated that 70% of all health care providers, being nurses, complementary therapists and physicians, will calibrate at or over 600 on the Map of Consciousness, whether they are working at a Pascas Care Centre or a Pascas Health Sanctuary. Within this environment, everyone within the sphere of influence benefits from this ambience.

Programs are available to assist with the evolution of consciousness of all Pascas employees and consultants. The study of Power vs Force by David Hawkins typically lifts consciousness levels by 35 points, the study of David Hawkins trilogy of books has a probable impact of 100 points. The Course in Miracles typically lifts a person to 600 being the platform for which the course was designed. Reference material and their calibrations are scheduled herein.

At the consciousness level of 600 and above, all healing is possible.

What Is Ozone Therapy?

It's so simple it befuddles the great minds. Unlike healthy human cells that love oxygen, the disease causing viruses, bacteria, fungi, and parasites – including HIV and cancer virions, arthritis microbes, and others – like most primitive lower life forms, are almost all anaerobic.

That means these microbes cannot live in oxygen. Therefore, what would happen to these anaerobic viruses and bacteria if they were to be completely surrounded with a very energetic form of pure oxygen for a long time? What if enough of this special form of oxygen / ozone was to be slowly and harmlessly introduced into the body daily, over the course of a few months, by bypassing the lungs, and yet eventually saturating all the bodily fluids and every cell with it? Wouldn't the disease causing microbes that can't live in oxygen cease to exist?

All 30 or so oxygen therapies, including ozone, work because they flood the body with Nature's single oxygen atoms. Singlet oxygen and its by-products are very energetic oxidizers – they "burn up" waste

products, pollution, and microbes. They can't protect themselves because they are either inert, or lower life forms. Normal body cells protect themselves from the oxidizing effects of oxygen by naturally producing their own protective antioxidant coatings.

We are 66% water. Most European and many American cities purify their municipal drinking water by bubbling ozone through it to kill all the bacteria and viruses, etc. See Inactivation Kinetics of Viruses and Bacteria by use of Ozone, by E. Katzenelson, et. al., American Water Works Society, 1974.

Most bottled water in the U.S. goes through the same ozone purification methods. Since your body is two-thirds water (we are internally permeated with fluids), the same purification principals would directly apply to us. Ozone is simply infused through your personal body liquids to sterilize and purify them. This method has been successfully applied to the human body by well-informed doctors treating diseased persons for over 100 years. It's simple. Our natural intake of oxygen from food, air, and water is the way nature intended us to keep healthy and clean, by naturally oxidizing away the microbes and toxins.

Unfortunately, due to human ego and greed, mankind has polluted the eco-system, cut down too much of the rainforests, and is ruining the oceans. These are the two major sources from which most all of the oxygen comes from. So because we are all somewhat oxygen deficient, our bodies can no longer take out (oxidize) the trash. Even the ozone layer above us that protects us from ultraviolet rays is born when the rainforests make the oxygen that eventually turns into ozone. The removal of our planet's oxygen generating forests, and atomic bomb testing rendering the natural oxygen isotopic and unable to turn into ozone, is directly related to the "mysterious" holes in the ozone layer.

Peter Javonic has witnessed hundreds of AIDS and other patients receiving ozone infusion therapy. When they start out their blood is filthy, diseased, and so empty of oxygen that it is almost black in colour from the filth. If you keep putting the ozone into them for a while, the blood turns back to a bright cherry red colour, full of life giving oxygen and clean. Human ego is presently preventing us from exploring ozone's use in US medicine without great difficulty. For example, in New York City it is illegal to say any therapy helps AIDS. This law has been used as an excuse to shut down experimental ozone clinical trials in progress before they could produce the documentation. There is plenty of documentation already available in major journals.

BLOOD PURIFICATION

There are two major functions involved in the process of blood purification. The first is Vos Amo Ultra. This is the Recirculatory Haemoperfusion (RHP) process, 'similar to dialysis', where the blood is drawn from the patient in an extra- corporal loop and using a specialised mixing chamber, as pictured.

This technique has evolved over 22 years of research into what is believed to be the most up to date procedure yet and involves the purification of blood on a cell to cell basis. Very simply, it is a process where blood is taken from one arm mixed with ozone and purified through a micro-fibre filter, removing the waste and returned to the body as charged blood that in turn shares that energy with your complete body system and in time reaching every cell possible.

This system has been tested on patients and animals in thousands of studies and has been found to have absolutely no side-effects (no contra-indications) to anyone when applied in the correct technical manner with the correct equipment under trained supervision.

The oxygen atom when excited through this process has many notable actions which include anti-viral, anti-bacterial, anti-fungal and anti-parasitical to name a few. It has also been proven to increase interferon along with an increase in Tumour Necrosis Factor and Interluken II.

The second method is by IV injection, which is known as Vos Amo Direct. This method encompasses the use of direct vein injection into the bloodstream of ozone gas anywhere from 2 – 4 millimetres (mls) a minute and is dependant on weight for its total volume. The healing mechanisms of ozone and its sub-species are a function of Ionization, Oxidation, phillo-electric exchange plus the denaturing of the protein structures of diseased cells and inhibiting target ligand viral attachments. Oxidation will also breakdown the lipid membranes of infected cells. It is important to note that there are also numerous other combatant forms of molecular reactions, which occur in the eradication of diseased tissue and cells when using these two methods.

A major contribution in which this new blood purification system can be applied, is in the treatment of stored blood and blood components, particularly in the application from donor to bag, from bag to bag, and from bag to recipient. Proven efficacy of the technology has been in the total elimination of other viral and biological warfare proteins without any harm to total blood or blood products.

One of the most important mechanisms of this process is in stimulation of the immune system and the detoxification of bodily functions. The application of these treatments are very easily applied, allowing

doctors and nurses to be trained comfortably within 72 hours by specialised international training personnel.

What you are seeing here is the very dark, almost black, unhealthy blood as it leaves the body of the patient. The other hose with the red blood is what it looks like after it is treated and purified with ozone. You can see the dramatic change in the colour of the blood. It is now clean and is the colour of healthy blood and is ready for reintroduction to the blood stream. This process is completely painless and the patient is free to leave five minutes after receiving the treatment.

EDIBLE VACCINES

Edible vaccines new delivery modalities will promote both stability (drug) and the appropriate cellular interactions (vaccines). This includes a novel vaccine adjuvant for boosting the immune responses induced by classical vaccines as well as individual vaccine components.

All products will be able to be taken by mucosal administration (drinking, eating or inhaling).

Employing plant production, cost of vaccines produced will be reduced to between 100th to 1,000th in cost. Vaccines include:

- Nerve Agent Antidote – Butyrylcholinesterase – (BCHe).
- Edible human immunodeficiency virus (HIV) Vaccine (for developing countries).
- HIV p24-based viral load assay.
- HIV and any viral protein components, being plant derivatives, for production of vaccines and for diagnostics.
- Virus-based adjuvant future
- Orally administered treatment for haemophilia future

Utilizing the Company' novel technologies, *ProCell's* diagnostics assays, biologics, and vaccines will exert their benefit by providing significantly enhanced sensitivity, quality, ease of use, clinical efficacy, and safety.

Each of the core technologies listed above can be enabled and applied to specific aspects of HIV, haemophilia and nerve agent protection.

Have a cookie!

The cookie vaccines are developed from local crops which are specifically designed by concentrating the required proteins within the seed.

The 'cookies' are not cooked. The vaccine is a paste that is formed into a cookie shape.

TRUE PRAYER – WHEN THREE BECOME ONE

All possibilities have already been created and are already present. Rather than forcing solutions upon the events of our lives, we are invited to choose which possibility we identify with, and live as if it has already occurred. Clearly, this does not suggest that our “will” is imposed upon others in the form of prayer. Rather, it is our willingness to allow for all possibilities without judging any of them, and knowing that we may attract or repel each through the choices we make in our lives that provides the subtle difference. Choosing an outcome through prayer does not guarantee that it will come to pass; our prayer simply opens the door to the possibility of that outcome. The question now becomes, How may we bring specific outcomes into the focus of the present through prayer?

Thought, feeling, and emotion as unaligned patterns.
In the absence of union, they may lose their focus.

The key to choosing one outcome from among many possible outcomes is our ability to feel as if our choice has already come to pass. From the previous definition of prayer as ‘feeling’, then, stated another way, we are invited to find the quality of thought and emotion that produces such a feeling – **living as if our prayer had already been answered.** For how may we benefit from the effect of our thought and emotion, if each pattern is moving in a random direction? If, on the other hand, the patterns of our prayer are focused into union, how can the ‘stuff’ of creation fail to respond to our prayer?

CHILDSOS = CHILDHELP:

CHILDHELP & JOURNEY PROCESS

Childhelp exists to meet the physical, emotional, educational, and spiritual needs of abused and neglected children.

We do so by focusing our efforts in the areas of treatment, prevention, and research.

Using **The Journey** with kids is a practical and effortless way to help children clear personal issues, liberate the innate genius within, allow natural abilities to shine and their spirits to soar. The results kids experience are as profound and deep as with adults attending The Journey Intensive programs.

Child help as well as parent help support is incorporated within Pascas Care Centres capabilities.

EVERYTHING MAY BE IN PLAIN SIGHT:

Social groups who often fail to blossom generally reflect two distinctive characteristics:

1. A dwelling upon the past.
2. Community teachings that are inadequate.

Spiritual teachings that generally date back two thousand years or much longer all have core understandings that have been distorted over time and, most impactfully, the omission of important truths continues to be the barrier to growth within such communities.

Members within communities express depression and anxiety when the simple truths are easily to be provided and shared without disruption to existing ways. It is only through these gifts of truth will community issues abate and subsequently be put aside.

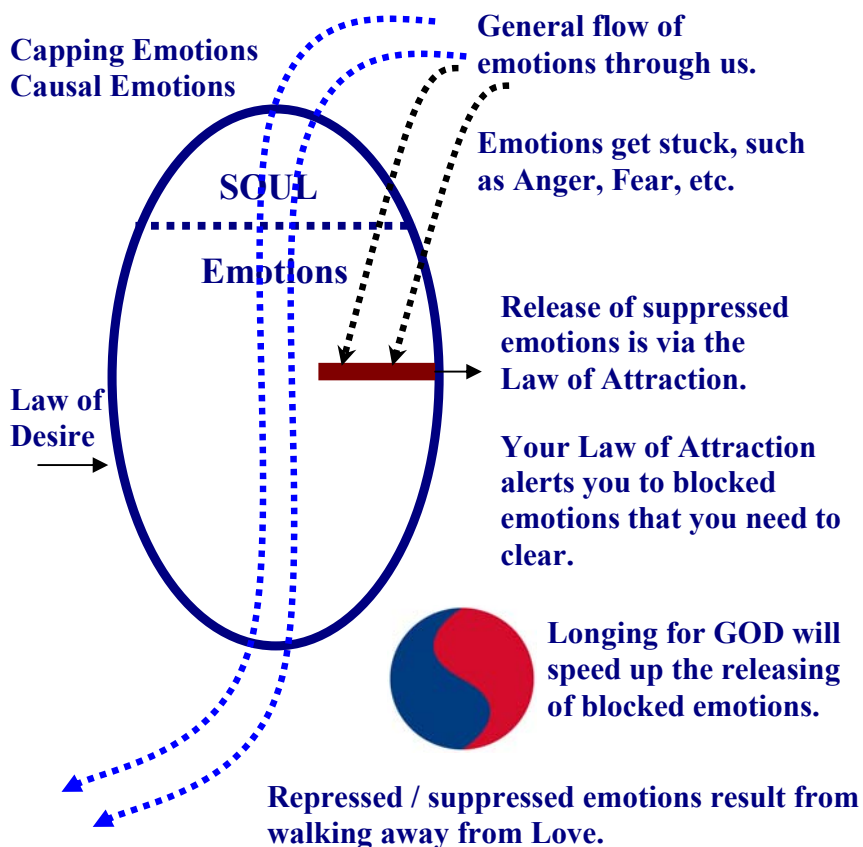

The problem for healers is that the patients own physical soul is generating the problem.

When the person who we are trying to heal does not want to deal with the cause, the healer's power is severely diminished to assist them because their own soul is generating the problem.

All illness is a result of the soul having these blocked emotions, which then create the illness in the physical form and the spirit body. If the person's soul condition is not addressed, then the person is going to recreate the same type of problem and issues.

It is very important that we start to see things at the causal level, particularly in the medical and healing profession. 16 May 09

Fuel Foods in typical diets include commercial carbohydrates (bread, baked goods, etc) and processed fats (margarines, shortenings, fried foods), which contribute to the majority of chronic disease conditions in our society. Therefore, the FUEL category should be reduced. Fruits should also be reduced because they contribute to overweight if not burned.
