## DEMOCRACY

We often express being proud to belong to a free and democratic society. But what does that mean?

We freely elect a representative from within our community to represent us, each of us, in the highest levels of government of our land. We typically know little about this person yet we assign full authority to him or her over our family and ourselves through the mark we make on a small ballot paper!

On a federal government level we are formed into electoral divisions of around 170,000 people (adults and their children) of which a little over 100,000 may vote, being those who being eligible and register to vote for a candidate.

The candidate who gets the majority of votes (preferential voting) gets to go to parliament to represent us. Thus half of the voters are immediately disenfranchised because they voted for a losing candidate.

Then of those who get to go to parliament, nearly half of them are in opposition needing to sit out the term of the election to run again and hopefully be in a majority that then governs.

Of those in the majority, two thirds find themselves in the back bench as a special cabinet is elected out of the winning majority group thus disenfranchising even more of the electorate.

Then out of this privileged cabinet, they elect a leader who appears to be all things to all people – but seldom is. There is no consideration of the skills, experience and consciousness levels of candidates.

As for the inner circle of the cabinet of around 24 elected representatives, they are assigned ‘portfolios’ that they have little experience with. It takes you and me most of our lives to learn our special trade and professions, yet these few people are given authority through a ‘portfolio’ to administer for a nation’s population of many millions. Some do excel at their appointment – only then to be reassigned to another portfolio.

The public is never made aware of the gross unseen manipulation of the nation’s finances, health, education, defences, social services systems, justice, public works, etc., that hidden controllers manipulate with impunity. If a cabinet member begins to encroach upon their domain and control, then they are re-assigned to another portfolio and a novice is appointed in their place. This pattern unfolds, time and time again, all around the world. This pattern of control unfolds through secret societies who are in turn controlled by a much smaller group of privileged families.

But before we get to parliament, let us look at the hidden control on how candidates are chosen to run for election, well before we get to know who they might be and then consider voting them in.

Remember, this is the ‘democracy’ of the so-called free world.

Two platforms that we consider when we engage executives to lead our businesses and corporations. We seek out experienced skilled people who have high integrity and personality that are conducive to deliver the outcomes beneficial for all concerned, including for themselves, but most importantly for all the people that they will have responsibility for – in political appoints, it is firstly for the electorate and then for the whole of nation in regards to any portfolio they may be assigned.

The second platform is leadership qualification. As we are introducing Dr David R Hawkins' Map of Consciousness and that through kinesiology muscle testing, we can calibrate each and every candidate as to their personal consciousness level – at anytime, anywhere they may be – and leadership benchmark is at 400 on the Map of Consciousness scale, being the lowest point of Reason on the scale that is based on the common log of 10. A one point increase is a tenfold increase in energy. Thus, no political representative nominee should be considered that calibrates below 400 on the MoC.

The overall calibration of the population of Australia is 410. Our political representatives should be considered the elite of leadership for the nation and calibrate above the norm for the nation. They presently do not. Even those who find themselves in the inner circle of the cabinet and shadow cabinet do not calibrate at or above the norm for the whole population of Australia. As per the chart that follows, the two cabinet groups calibrate on average at 390. The back benchers are even lower – those being not invited into the cabinet of the winner group or the opposition group leadership.

As Australia presently elects 151 members for the House of Representatives and 76 for the Senate then why not have all of them with appropriate capabilities do what they are elected to do – represent their constituents? Why have parties to group them into packages that then can have them sidelined for the term that they are elected for? All those elected should be provided with the freedom to vote as they feel appropriate without the dictates of party lines determined by authorities that are not necessarily ever elected – paid party officials pulling the strings on behalf of hidden controllers and other influencers.

John (the typist), when being a professional accountant in public practice asked six of his clients – at separate times – why they were politicians. He did this privately. They each answered the same way – for the kickbacks. They were not politicians for their constituents, they were after what they could personally gain from their positions of power for their own greed.

Recently, John worked with a party who has aspirations to gain a high political position within the nation he originates from. Without going into detail, basically built into the documentation being assembled, there may have been around twenty ways that he had built in the means to graft out 'kickbacks' in what was being assembled for the 'benefit' of his people. The arrogance of the candidate left no doubt as to his intent. Dialogue was discontinued.

So, why are candidates of such low capability and calibration being presented to the electorates? Yet when we engage executives we only consider the most professional and capable person possible? Why do we accept these impositions?

The system, in this case being democracy, is designed to keep the populace from evolving, from blossoming into the potential that we all have within each of us, from recognising and freeing ourselves from the suppression that we each are subjected to from the moment of our conception. This has all

been imposed upon each of us by unseen controllers for aeons and now we are all beginning to comprehend what we are being subjected to – now we can change it.

Leadership commences at the level of Reason on the Map of Consciousness – that is 400 MoC. Most candidates fail miserably on these calibrations, yet the elections mainly are for these nominees who we each would not even consider employing within our enterprises.

This is how the hidden controllers want it. Incompetent and incapable leadership, then divide them up – half opposing the other half, then divide the winning half into a small inner circle – cabinet – and then put the ‘elite’ into portfolios of incompetence. If a star begins to impinge upon the hidden control then move that person to a position of incompetence. It is ever so easy to have false accusations surface for any member of parliament who might become difficult to manage and even end their career.

Presently, only around 20% of the cabinet members, both in the leadership and shadow cabinets, calibrate 400 or higher on the Map of Consciousness. Neither of the leaders of the party in power and the party in opposition calibrate at the average of the elected representatives or even above.

This is democracy for you – and it is considered the best of all the systems.

We can change it:

- No parties – everyone is independent.
- Those elected are not formed into leadership and opposition groups.
- All those elected are free to vote as they feel appropriate.
- No opposition party or parties. All members of parliament can freely vote.
- Cabinet and leadership drawn from the most capable of ALL those elected to parliament.
- Candidates for election must calibrate 400 or higher.
- Candidates must outline their special skills and their desires for their constituents / electorate.
- Articulate policy – these to also be calibrated, as a whole and each part individually.
- Those who are elected to be the leaders of all the elected members of parliament are from those calibrating 440 or higher.

An outside Council of Elders without any political alignment may be formed from those calibrating 470 or higher from the population to provide guidance to the parliament on behalf of all the people of the nation.

Not only all autocratic ‘governments’ to be rejected by their oppressed people of those nations but all systems established during the era of the Rebellion and Default are to be dismantled by the people and The NEW WAY be brought into being. This means nothing will remain as it has been.

Presently, most governments around the world are of consciousness levels lower than the overall consciousness of each nations people’s consciousness, thus retarding the potential of the people, perpetuating their zombiistic life and having them live in a stupor, all kowtowing to the dictates of hidden controllers, including, unknowingly, these elected governmental officials.

Amazingly, the political systems imposed upon every nation retard the potential of and for leadership. Political nominees and systems continue to be orchestrated to suppress the potential and growth of the people for the benefit of the few hidden controllers. The feudal systems of years gone by imposed hereditary ego-centric leadership that was assured generation after generation without any regard for the advancement of the people. Monarchist leaders may appear to be informed, educated, but were mostly shows of concentration of wealth that should have been shared amongst the population. Now, we have gatherings of elected representatives that are focused upon ‘what is in it for me’ – the kings and queens of kickbacks! Governmental systems are nothing more than the rebadging of centralising of control, power and wealth for the few, whilst the many are enslaved to their power corruption and greed. Inferior political appointees of inadequate consciousness development are eventually entrapped into the manipulations of hidden controllers.

**hidden controllers**

Constituents from within electorate areas ‘nominate’ candidates without comprehending the candidates inadequacies – morally and professionally. Candidates are split into opposing parties. The winning majority then have these incapables elect from within themselves, their inner circle, being a cabinet who are said to be the elite from within amongst the inadequate. Then the cabinet elects a leader who essentially is the dictator of the nation until the people wake-up and elect a different group of incapables. Meanwhile, the nation stagnates and the cycle goes around once more. Consideration can embrace the need for no party allegiances after selecting highly professional candidates in the same manner that corporations appoint high level executives while only considering those whose Map of Consciousness (MoC) calibration being above 440.

# Pathway Forward

**To liberate one's real self, one's will, driven by one's soul, moves one to embrace Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.**

**The Golden rule is: Never interfere with another's will.**

**Golden Rule: that one must always honour another's will as one honours one's own.**

**New Feelings Way: learning how to live true to ourselves by living true to our feelings.**

**We are to express our feelings, both good and bad, at all times, and to long for the truth of them.**

**By living true to ourselves true to our feelings, we are living true to God. It's that simple.**

Mostly, the elected representatives are not of the consciousness level of the people overall. The leadership of a country is typically put in the hands of those who do not even have the capabilities of the population overall. And as you look further into the inner circle of the leadership, the situation deteriorates. If elected leaders do show initiative and capability in their elected portfolio then they are shifted to new portfolios so that they may fail and not threaten the inner sanctums of control.

In application to international relations, it is important to realise there is often a wide disparity between a country's populace, its leaders, its actual government operations, and its diplomatic representatives. Adequate research and diagnosis of international situations can prevent the repetition of catastrophes of the past that cost the lives of millions of people. This is glaringly obvious when you understand that for decades USA through NATO has been coercing and militarising Ukraine to be the frontline and bridge into Russia, that China will move to consume Taiwan having done so with Hong Kong, that Iran may seek to obliterate Israel. Little is understood of President Donald Trump endeavours to fund North Korea into economic prosperity in return for it becoming a confrontational front to China for the USA.

Leadership is best to be bestowed upon those who calibrate 470 or over on the Map of Consciousness (MoC). Coincidentally, the financial viability of the most progressive corporations and the most employee friendly work environments are those with leadership calibrating well above 400 on the MoC – these are few and far between. Consequently, it is those countries that have their leader's calibration at 440 MoC, if not higher, these are the most vibrant, progressive and stable. Further, political candidates need to qualify for preselection only if they are calibrating well over 400 before standing for election. If they do not calibrate within the zone of Reason on the MoC (400 – 499), it is pointless to consider candidates who calibrate below. The process of calibration takes only a few moments and multiple people can carry out the calibration of each candidate to confirm reliability of the kinesiology calibration.

Adolf Hitler calibrated at 430 MoC throughout his early political career. Adolph Hitler assembled the greatest military machine the world had ever seen. On the simple level of force, his military was unbeatable; yet he could not defeat a tiny island nation across the English Channel because the power expressed by Winston Churchill, who unified the will of his people through principles of freedom and selfless sacrifice. Churchill stood for power, Hitler for force. When the two meet, power always eventually succeeds; in the long run, if it is deeply founded in the will of the people, power is immune to force. Winston Churchill calibrated at 510 MoC. When Hitler suicided at the end of World War II, his consciousness level had degraded to 40 MoC. (Truth vs Falsehood and Power vs Force, both by Dr David R Hawkins).

Interestingly, similar circumstances are unfolding now, in March 2022, with President Vladimir Putin (MoC 360), having commenced invasion of Ukraine on 24 February 2022, is applying force upon the people of Ukraine which is led by President Volodymyr Zelenskyy (MoC 400) who is responding through his people with power. Interestingly, research of a number of wars and the leadership of both sides, it has been the leader calibrating the highest that has always prevailed – eventually!

### **How is it that we are each so retarded?**

Wayward high level leadership of Earth's humanity has cleverly crafted and institutionalised systems that impede every aspect of our living. This has been so for the past 200,000 years.

We were firstly guided, influenced to embrace living mind-centric. That is, we now believe that through our minds that we may achieve all of our goals, we can become almost everything we want, that we can become powerful and prosperous and progress to the greatest heights imaginable. We are to live suppressing our feelings, we are taught by our parents to suppress our true personality and to embrace the personality they want us to be – like them – deluded!

As women are closer to their feelings than men, these high level wayward leaders guided men to subordinate women. Thus, these past 200,000 years, women have been subjected to suppression by men because as women embrace their feelings and begin to express their feelings, which are always in truth, women will expose the folly of mind superiority. We are to live feelings first and have our minds follow in the process of implementing what our feelings are leading us to embrace. Not the other way round as it now is – mind first and feelings suppressed.

Our minds are wonderful and all part of our progression – when in support of our feelings. Our minds cannot discern truth from falsehood and are addicted to untruth, our minds are addicted to control of the environment and other people. Our thoughts are mind generated, when we say; ‘I think’, we begin to express and assumption generated by our mind – assumptions are around 98% in error, the other 2% are flukes. Our feelings are always in truth. We are fully self-contained, all we need to know is self-contained, we have all we need within ourselves, all we need to do is allow our feelings to surface and embrace them, having our minds to follow in implementing our feeling’s guidance.

### Education

All education platforms, worldwide, are predominantly mind-centric. There is no feeling orientation and embracement in the way we are to live within education platforms. In fact, education is a tiresome, boring process of lectures. A lecturer delivering a tirade of words from the front of a room is the most ineffective teaching and learning device imaginable – it is also the most commonly employed teaching process.

## The Learning Pyramid:

Once the core subject material is introduced, students tutoring each other in small groups of around 12 people is the superior learning process – yet seldom provided for. Practice by doing, tutoring others flows into natural self-expression, achieves comprehensive knowledge of any core subject – and it is permanent learning. Our whole life is about experiences and the feelings that come from such experiences. As feelings arise we are to long to know the truth behind what those feelings are endeavouring to reveal to us. We are truth seekers! And we are to be feelings expressive!

By being mind-centric, we cannot progress up Dr David R Hawkins’ Map of Consciousness (MoC) scale beyond 499. On the MoC, 400-499 is the field of ‘Reason’ – the pinnacle of science!

Universally, all sectors of education, pre-school, primary school, high school, craft centres, technical and further education, university, etc., are all mind-centric platforms that retards one's freedom of expression and closes down evolutionary growth potential. The PhD – Doctor of Philosophy – is the extreme of feelings suppression being total immersion into one's mind.

## Health

### Are there really 10,000 diseases and just 500 'cures'?

“Regulators, scientists, clinicians and patient advocacy groups often cite ~7,000 as the number of rare diseases, or between 5,000 and 8,000 depending on the source. While this consensus process is still ongoing, USA National Institutes of Health currently estimate the number of rare diseases to be more than 10,000. An estimate published by the University of Michigan Medical School that “there are roughly 10,000 diseases afflicting humans, and most of these diseases are considered ‘rare’ or ‘orphan’ diseases.”

“There are other estimates, as well. The German government lists 30,000 diseases, of which it says 7,000 are rare, though it cannot be determined how that figure was calculated. Anderson noted that the 10th revision of the International Statistical Classification of Diseases and Related Health Problems (known as ICD-10) has nearly 70,000 codes, which would be an upper-bound estimate.

“The focus is really on rare diseases, but a credible case can be made that there are at least 10,000 diseases in the world, though there is likely more. And there are a bit over 500 treatments. So, as far as round numbers go, 10,000 diseases / 500 treatments works as a talking point.”

**However, NO ONE** comprehends what is the underlying cause of disease! Our health carers, our doctors and nurses never discuss or outline why we have a discomfort, pain, illness or disease. Kindly ask yourself, when was the last time your medical practitioner outlined to you why you have a particular health issues that you presented yourself with to him or her? **There is ONE cause – CHILDHOOD SUPPRESSION.**

Medical sciences introduce a never ending array of names for a never ending array of ailments without comprehending the elephant in the room – our **Childhood Suppression and ongoing Repression**. ALL our discomforts, pain, illnesses and diseases are generators to have each of us express our feelings, both good and bad. As we grow in embracing this way of living FEELINGS FIRST and long for the truth of what our feelings are drawing our attention to, we will come to recognise that all our issues have their foundations throughout our childhood forming years, from the moment of conception through to the age of six years, up to when our Indwelling Spirit arrives.

Our soul orchestrates it all. Our soul does everything. Our soul brought our spirit body into existence and, in turn, our etheric spirit body is the template of our physical body. Light continually flows from our soul through our spirit body and into our physical body. Our experiences in the physical are expressed back to our soul as light. Everything that we experience is recorded by this light returning by our soul. Emotional injuries and errors of belief that we experience impede the flow of light back to our soul – consequently we are degraded by such accumulating damage and harm. Look at a young child and then look at yourself now!

At the moment of our conception, we are perfect in every respect – both in Natural love and physically. We are then literally fire-hosed by our parents' emotional injuries and errors of belief and this is ongoing. They are not even aware of our existence when this onslaught commences – no wonder many conceptions do not survive to incarnation which is when the foetus commences to pump blood some 16 days after conception.

*My individual "Rebellion and Default"  
is my overarching virus!*

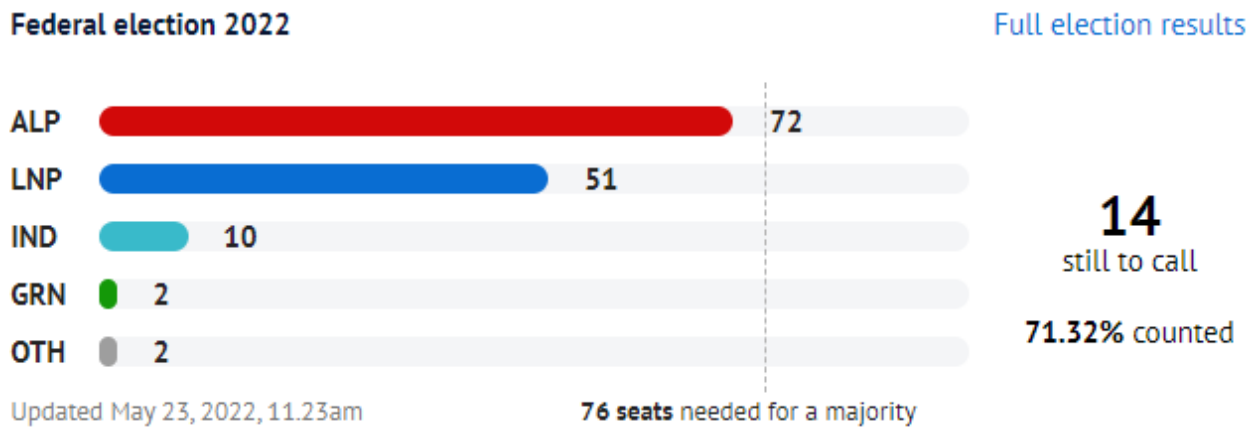

*We are to express our feelings,  
both good and bad, emotionally!*

# Teal Independents, inside the teal wave: How the independent revolution happened

The teal wave that swept over inner-city electorates from Sydney’s northern beaches to bayside Melbourne and to Curtin in Western Australia on Saturday night was devastating for those who had believed there would always be Liberals in the wealthy heartland seats of Australia’s big cities.

Up to six new “teal” candidates will join Zali Steggall and Helen Haines on a swollen crossbench which, could grow to as many as 15 – the largest since World War II – with the addition of several Greens and a new independent member for Fowler in Sydney.

[Much was said](#) about this group of professional women during the campaign: that they were fake independents, that donor Simon Holmes a Court was a Svengali co-ordinating them as an undeclared party, and that their election would bring chaos to parliament.

But huge swings to them in previously safe Liberal seats showed voters were prepared to defy Scott Morrison’s scare campaign, suggesting to their backers and electoral experts that they filled a real need in the community.

The question remains, though: are the teals here to stay or will those seats revert to Liberal type after one or two terms, once the spectre of Morrison’s [“bulldozer” approach](#) to government has faded into memory?

Ask the independents themselves and they all say their beliefs have not changed, that the Liberal Party’s have and they have moved away from those of their electorates.

“The sensible-centre independent candidates across the country have stepped up to fill the space left by the Liberal party’s shift to the right,” said Kate Chaney, the independent [likely to win Curtin](#) in WA.

“Like many other communities around Australia, we scratched the surface of Curtin and found a deep desire for change – the Liberal Party is unlikely to feel entitled to this seat again.”

Former ABC journalist Zoe Daniel, who [claimed victory](#) over Liberal assistant minister Tim Wilson in Goldstein, echoed the words: “The commonality (across the country) is that the Liberal Party has lost its centre.”

She also pointed to climate and integrity as major issues, but said gender equality and the “lip service” paid to it by the Coalition was also a huge factor.

On Saturday night, Sophie Scamps, the new member for Mackellar in NSW, said her priority policies had come directly from the residents and were crystal clear, including urgent and strong action on climate change.

On the Dr David R Hawkins’ Map of Consciousness, these six independent candidates calibrate an average of 434 – ALL leadership candidates, all potential prime ministers!

When considering all of the eight listed below, we have an average calibration of 433 – a true leadership team and true representation for their electorates.

## The real teal: the independents who shook up party politics

## POWER in POLITICS

### Power vs Force by Dr David R Hawkins chapter X

To better understand the critical differences between force and power and the implications of this distinction for our own lives, it is helpful to examine human endeavour on a larger scale – the interactions of men and governments provide many clear illustrations.

Looking at history from our unique perspective, we will, of course, be reminded of the powerful example set by the American Revolution which first formally established freedom as an inalienable right, setting a precedent for centuries to come. Principles which calibrate as high as 700 on the Map of Consciousness (MoC) affect mankind over great courses of time. The pen is indeed mightier than the sword, because power originates from the mind, whereas force is rooted in the material world.

A related pivotal event in global history, to which we have already referred and will again, came about in this century through the power of a solitary man: Mahatma Gandhi, a ninety-pound (41 kilograms) “coloured”, who single-handedly overcame the British Empire, then the greatest force in the world, ruling two-thirds of the face of the globe.

Gandhi not only brought the British Empire to its knees; he effectively rang down the curtain on the centuries-old drama of colonialism, and he did it by simply standing for a principle: the intrinsic dignity of man and his right to freedom, sovereignty and self-determination. Fundamental to this principle, in Gandhi’s view, was the fact that such rights derive to man by virtue of the divinity of his creation. Gandhi believed that human rights are not granted by any earthly power, but are inherent in the nature of man himself because they are inherent in his creation.

Violence is force; because Gandhi was aligned with power, rather than force, he forbade all use of violence in his cause. And because he expressed universal principles (which calibrate at 700 MoC) he was able to unite the will of the people. When the will of the people is so united by and aligned with universal principle, it is virtually unconquerable. Colonialism (calibrated at 175 MoC) is founded in the self-interest of the ruling country. Gandhi demonstrated, for the world to witness, the power of selflessness versus the force of self-interest. The same principle has now been demonstrated quite dramatically in South Africa by Nelson Mandela.

Power accomplishes with ease that which force is unable to accomplish even with extreme effort; thus, in our own time we have seen the almost effortless toppling of communism as a governmental form, after half a century of the most ominous – and ultimately ineffectual – military confrontation of history. The political naiveté of the Russian people, long used to the tyrannical rule of czars, did not allow them the civic wisdom to understand that in the name of communism a totalitarian dictatorship was being established. Similarly, the German people were deceived by Hitler, who rose to power in the name of national socialism only to establish a virtual tyranny. A distinctive characteristic of force in politics is that it cannot tolerate dissent. Both rules depended on the pervasive use of force through secret police; Stalin, who also put millions to death, relied on his KGB, as Hitler his Gestapo.

Adolph Hitler assembled the greatest military machine the world had ever seen. On the simple level of force, his military was unbeatable; yet he could not defeat a tiny island across the English Channel because of the power expressed by Winston Churchill, who unified the will of his people through principles of freedom and selfless sacrifice. Churchill stood for power, Hitler for force. When the two meet, power always eventually succeeds; in the long run, if it is deeply founded in the will of the people, power is immune to force.

Force is seductive because it emanates a certain glamour, whether that glamour is manifested in the guise of false patriotism, prestige or dominance, while true power very often is quite unglamorous. What could be more glamorous than the Luftwaffe and Waffen SS of Nazi Germany during the Second World War? These elite branches embodied romance, privileges and style and certainly had at their disposal enormous force – the most advanced weapons of the day and an *esprit de corps* that cemented their might. Such is the glamour of the formidable.

The weak are attracted to and will even die for the glamour of force. How else could something as outrageous as war even occur? Force often seizes the upper hand temporarily, and the weak are attracted by those who seem to have overcome weakness. How else could dictatorship be possible?

One characteristic of force is arrogance; power is characterised by humility. Force is pompous; it has all the answers. Power is unassuming. Stalin, who strutted military autocracy, has gone down in history as an arch-criminal. The humble Mikhail Gorbachev, who wore a plain suit and easily admitted to faults, has been awarded the Nobel Prize for Peace.

Many political systems and social movements begin with true power, but as time goes on become co-opted by self-seekers and end up relying increasingly on force until they finally fall in disgrace. The history of civilisation demonstrates this repeatedly. It is easy to forget that the initial appeal of communism was idealistic humanitarianism, as was that of the union movement in the United States of America (USA) until it became a refuge of petty politicians.

To fully comprehend the dichotomy we are discussing, it is necessary to consider the difference between a politician and a statesman (and stateswoman). The politician, operating out of expediency, rules by force after gaining his position through the force of persuasion – he often calibrates at a level less than 200 MoC. (A verbal bully!) Statesmen represent true power, ruling by inspiration, teaching by example and standing for self-evident principle. The statesman / stateswoman invokes the nobility which resides within all men and women, and unifies them through what can best be termed the heart. Though the intellect is easily fooled, the heart recognises truth. Where the intellect is limited (of the mind), the heart is unlimited (of the soul); where the intellect is intrigued by the temporary, the heart is only concerned with the permanent.

Force often relies upon rhetoric, propaganda and specious argument to garner support and disguise underlying motivation. One characteristic of truth, though, is that it needs no defence; it is self-evident. Truth is always the same. That “all men are created equal” requires no justification or rhetorical persuasion. That it is wrong to gas people to death in concentration camps is self-evident; it requires no argument. The principles upon which true power is based never require vindication, as force inevitably does – there are always endless arguments about whether force is “justified” or not.

It is clear that power is associated with that which supports life, and force is associated with that which exploits life for the gain of an individual or an organisation. Force is divisive and, through that divisiveness, weakens, whereas power unifies. Force polarises. The jingoism that has such obvious internal appeal to a militaristic nation just as obviously alienates the rest of the world.

Power attracts, whereas force repels. Because power unifies, it has no true enemies, though its manifestations may be opposed by opportunists whose ends it does not serve. Power serves others, whereas force is self-serving. The true statesman / stateswoman serves the people; the politician exploits people to serve his own ambitions. The statesman sacrifices himself to serve others; the politician sacrifices others to serve himself. Power appeals to our higher nature, force to our lower nature. Force is limited, whereas power is unlimited.

Through its insistence that the end justifies the means, force sells out freedom for expediency. Force offers quick, easy solutions. In power, the means and end are the same, but ends require greater maturity, discipline and patience to be brought to fruition. Great leaders inspire us to have faith and confidence because of the power of their absolute integrity and alignment with inviolate principles. Such figures understand that you cannot compromise principle and still retain your power. Winston Churchill never need to use force with the British people; Gorbachev brought about total revolution in the largest political monolith in the world without firing a shot; Gandhi defeated the British Empire without raising a hand in anger. And we might not that the seemingly endless Middle Eastern conflict finally appears to be approaching resolution, not through violence, but communication, at long last, between the adversaries.

Can man lift himself by his bootstraps? Why not? All he has to do is increase his buoyancy and he will effortlessly rise to a higher state. Force cannot accomplish that feat; power not only can, but constantly does.

### Political Systems

Oligarchy	415	Feudal	145-200
Democracy/Republic	410	Tribal	200
Iroquois Nation	399	Theocracy	175
Coalition	345	Communism	160
Socialism	305	Dictatorship	135
Monarchy	200	Fascism	125

As we see from the calibrations of political systems, although democracy calibrates high at 410 on the Map of Consciousness (MoC), it is not quite as high as oligarchy at 415 MoC. In the higher calibration range, because the numbers are logarithmic, an increase of five points on the scale actually represents an enormous jump in power. A beleaguered society needs all the horsepower it can get, and therefore, it is suggested that the countries add to their governmental structure an “oligarchic” level (free of politics) equal to at least strongly advisory to the Cabinet level.

Oligarchy (a term from the pinnacle of ancient Greece) means the confluence of wise, seasoned, experienced, brilliant, accomplished, integrous, balanced, proven, gracious, sagacious, educated, good-will statesmen (calibrating at 430 MoC) rather than politicians (calibrate 180 MoC). It means mentor, advisor, mature, objective, well-rounded, well-spoken, successful, top level, self-fulfilled, and beyond the desire for gain, whether personal, political, or financial. This is the level of high-calibration experts of their own domains who are beyond neediness and who serve others by simply being who they are and feeling fulfilled by offering and sharing their wisdom.

Consider that such oligarchic group as being a Council of Elders to advise and assist the Cabinet of an elected government. As the events of The NEW WAY unfold, there will be people who will complete their personal FEELING HEALING and achieve a Celestial Soul Condition enabling them to be incredible advisors and guides for all of humanity – people well suited for any Council of Elders.

# ***Violence is never Justified***

Never is hatred, nor discord, nor war among men justified – no matter what the cause – and if men will only learn the Truth there will never exist such feelings or acts. Militarism is all wrong. Jesus 25 December 1915

**Note:** The Map of Consciousness scale is from 1 to 1,000  
 The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.  
 A calibration increase of 1 point is in fact a 10 fold increase in energy.  
 A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.  
 Thus the energy differentials are in fact enormous!

### NATURAL LOVE or HUMANITY'S ENDOWED EMOTIONS:

Your soul, being your real you, is an emotional being. Your soul, though a thought of God, does not possess anything of the divine within it. It existed in a state of bliss, in a natural love state, pending individualisation which is achieved at conception which is the time of incarnation. Your soul is endowed with natural love emotions noted within the top section of the Map of Consciousness scale, being those emotions calibrating above 200.

MAP OF CONSCIOUSNESS

Enabling	Satisfactory	Neutrality	↑ 250	Trust	Release
Permitting	Feasible	Courage	↑ 200	Affirmation	Empowerment

Humanity's erroneous emotions are those calibrating below 200 on the Map of Consciousness. The environment around a newly conceived child progressively degrades the condition of that child's soul. When the child reaches about the age of 6, the child's soul condition will reflect the parent's condition. These negative emotions are like a crust around the pure soul it has within.

**Note:**

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

**Blessing your food** achieves an increase of 15 points which is in fact a quadrillion ( $10^{15}$ ) jump in energy.

**Levels of consciousness** are always mixed: a person may operate on one level at one time and quite another level in another area of life. [In fact, we move in and out of fear, anger, guilt, etc. for either brief or extended periods. Even the levels up through unconditional love at 500 are experienced by most. But it is the percentage of time spent in each level that determines the dominant level in which one lives.]

**Shame:** Shamed children are cruel to animals and to each other. Later they are capable of forming vigilante groups to project their shame onto others whom they righteously attack. Serial killers have often acted out of sexual moralism with the justification of punishing "bad women". Shame produces false pride, anger, guilt.

**Guilt:** associated with victim hood, masochism, remorse. Unconscious guilt results in disease, accident-proneness, suicidal behaviour. Preoccupation with punishment. Guilt provokes rage. Capital punishment is an example of how killing gratifies a guilt-ridden populace.

**Apathy:** State of helplessness / death through passive suicide / level of homeless and derelicts / level of streets of Calcutta, abandonment of hope.

**Grief:** Level of sadness, mourning over the past / habitual losers / chronic gamblers / notion of being unable to replace what is lost.

**Fear:** Fear runs much of the world [in the enmity fearfulness is dominant emotion of 65% of the world] insecurity, vulnerable / leads to jealousy and chronically high stress level / very contagious / fearful people seek strong leaders.

**Desire:** Motivates vast areas of human activity. Desire for money, prestige runs lives of many who have risen above Fear. At this level of addiction / desire for sexual approval has produced an entire cosmetics and fashion industry / accumulation / greed. It is insatiable because it is an ongoing energy field. Satisfaction is impossible / frustration is assured.

**Anger:** Leads to either constructive or destructive action. Expressed most often in resentment and revenge. Irritable / explosive / leads to hatred.

**Pride:** Has enough energy to run the Marines. Is a great leap forward from lower fields / is socially encouraged. Defensive / vulnerable because dependent upon external conditions. Inflated ego is vulnerable / divisive / arrogance / denial. The whole problem of denial is one of Pride.

**Courage:** Where productivity begins / zone of exploration / accomplishment / fortitude / determination / exciting / challenging / openness. All of this is achieved through the leap to truth / the courage to face one's flaws.

**Neutrality:** Release from a position or opinion / flexible / non-judgmental / realistic. Not getting one's way is less defeating or frustrating. Beginning of inner confidence. One is not driven to prove anything. Does not lead to any need to control others.

**Willingness:** Growth is rapid here. Willingness implies that one has overcome inner resistance to life and is committed to participation. Genuine friendliness/ do not feel demeaned by service jobs. Helpful / high self-esteem / sympathetic / responsive to needs of others / resilient / self-correcting / excellent students / readily trained.

**Acceptance:** Major transformation takes place when one recognises that one is the source of the experience of one's life. A full assumption of responsibility for one's self. Acceptance of life without attempting to conform situations to one's own agenda. Denial is transcended / calm / perceptive / balanced / appropriate. No interest in determining right and wrong. Self discipline / honouring of others rights / inclusive / tolerant.

**Reason:** Intelligence/ capable of making rapid, complex decisions and abstractions / level of science / capacity for conceptualisation / deals with particulars / level of Nobel Prize winners, Einstein, Freud, etc. but ironically reason is often a block to higher states. (This is the glass ceiling imposed by the mind.)

**Love:** Love is not what the media professes: emotionality / physical attraction / possessiveness/ sentimentality / control / addiction / eroticism / novelty. When lovers or marriages "break-up", they usually were based on these attitudes rather than love, which is why this kind of "love" can lead to hate. It wasn't love in the first place. Love Deals with wholes. Unconditional love is accompanied by measurable release of endorphins. Love takes no position / permanent. Only 0.04% of population lives out of this level of consciousness.

**Joy:** Level of saints / effortless / people with near death experiences often have reached this level of consciousness. Healing occurs. Individual will merges with Divine will.

**Peace:** Radiance / suspension in time and space / everything connects to everything else / no preconception. Great works of art, music and architecture, which calibrate between 600 and 700, can transport us temporarily to higher levels of consciousness.

**Enlightenment:** Buddha and Krishna. Jesus progressed beyond 1,000 to achieve at-onement with God whilst living on earth. Enlightenment is a never ending process.

- Debate and implement resolutions with some degree of follow up generally needed. 410
- Management supervision is generally necessary.
- Politics become the hope for man's salvation.
- Cause no harm to others starts to emerge. Power overrides force. Illness is developed by those man erroneous emotions that calibrate 200 and lower.
- Armies around the world function on pride. Force is now dominant, not power.
- Harm of others prevails, self-interest prevails.
- Totally self-reliant, not God reliant.
- Fear dominates all motivation.
- Suicide is possible and probable.
- At these levels, seriously harming others for even trivial events appears to be justifiable.
- Poverty, unemployment, illness, etc., this is living hell on Earth.

**POTENTIAL to BENEFIT your CHILD through our own FEELING HEALING:**

This steps down each seven years as the child matures

From conception to age 6 or 7      From 8 to age 14      From 15 to age 21      From 22 to age 28

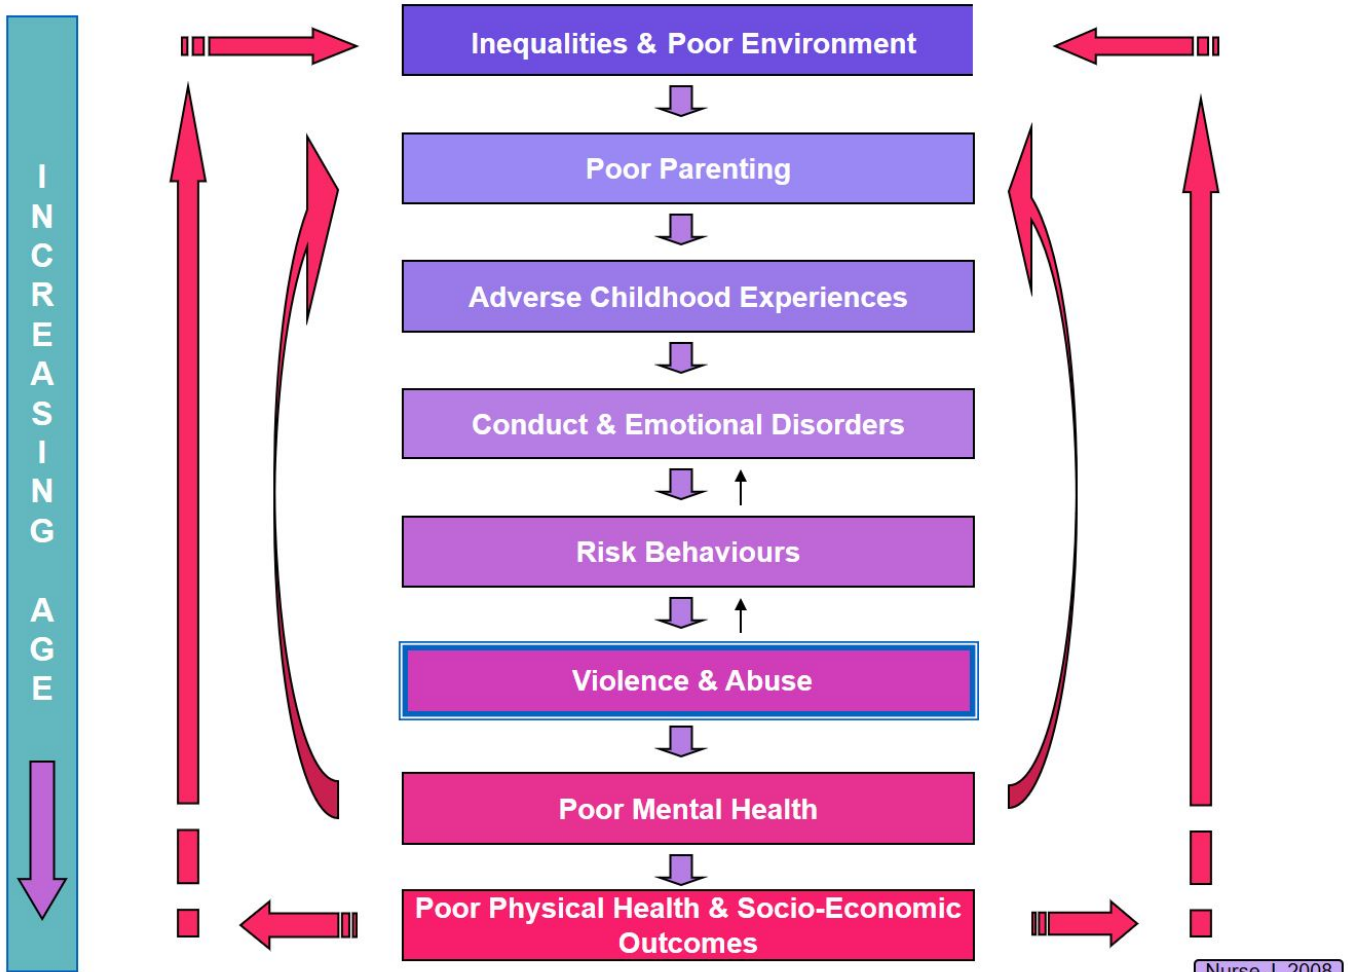

As we heal, we directly heal our children similarly.

The Indwelling Spirit arrival for the child around age 6 or 7 starts their independence.

## EXECUTIVE SUMMARY

2021 continued to be a year of immense challenges and uncertainty, as we faced the ongoing COVID-19 pandemic. Despite these challenges, KTF, and our dedicated teams and partners, was committed to the ongoing delivery of high-quality, high-impact projects across a range of program areas and regions throughout PNG.

In 2021, we delivered 18 projects across nine of PNG's Provinces; as well as our ongoing national work in leadership. We ended the year with almost 200 students matriculating from our FODE Colleges with a Grade 12 qualification and a significant portion gaining the minimum qualifications required to enter Teachers Colleges or Schools of Nursing. Hundreds of teachers participated in professional development and up-skilling opportunities; and more than 50 schools were supported with training, resourcing, and technology resulting in improved operating capabilities. We reached over 250,000 people with COVID-19 education and awareness, WASH facilities and PPE resources; and 60,000+ people had access to primary healthcare services across our remote and rural catchment region.

Our work in education, health, equality and leadership over the past three years, continues to improve lives, livelihoods and futures for the people of PNG. In education, our support of teacher training initiatives have enabled 115,000+ children to remain in school; and as PNG introduces its major education restructure, we are targeting practical and critical pathways for teachers in remote and rural areas to upgrade their qualifications, in order to remain on Government payroll, or to train as primary teachers, as the elementary layer of schooling begins to be phased out. We have supported almost 1,500 people on second chance pathways to become qualified teachers or community health workers. Similarly, our work in health provides life saving primary healthcare across a remote and rural population of 60,000 people. 50 health facilities have been supported with solar infrastructure, staff postings, drugs and medical resources and operating costs; and one critical outcome of our work in child and maternal health training is that 70% of pregnant women are now seeking child and maternal health care and supervised births in health facilities with qualified health workers.

Our work in equality also saves lives, with 50 survivors of family and sexual violence having been supported at the first safe house servicing Oro Province; and more than 3,000 people have participated in education and awareness sessions about family and sexual violence and their role in preventing it in their homes, schools and communities. We continue to be grounded in the philosophy that key to the change that we seek is strong leadership. That's why we continue to invest in the next generation of PNG's leaders, and have supported 74 extraordinary Papua New Guineans for more than a decade on their leadership journeys. With 70% of the alumni actively involved in establishing and running community and social impact projects, we know the future is in bright hands.

As we look to 2022, we know that the challenges of the pandemic will continue. We know that we must continue to support our teams to be resilient and to continue to innovate and adapt as we respond to the health and economic crises caused by the pandemic. You will read about the ongoing revisions and project pivots we have made which will continue into 2022 and put us in a strong position to deliver on our commitments. The education and health systems will need great help to recover and rebuild from the pandemic and we stand poised to play our role in this.

[Putin joke](#)

Putin dies and goes to hell, but after a while, he is given a day off for good behaviour.

So he goes to Moscow, enters a bar, orders a drink, and asks the bartender:

-Is Crimea ours?

-Yes, it is.

-And the Donbas?

-Also ours.

-And Kyiv?

-We got that too.

Satisfied, Putin drinks, and asks:

-Thanks, how much do I owe you?

- €5 euros.

## Russia at war with Ukraine

MOSCOW — Russians celebrates Victory Day on Monday, 9 May 2022, an annual event to mark the Soviet Union's defeat of Nazi Germany in World War II that has taken on added intrigue and import this year because of Russia's fight in Ukraine.

The Kremlin insists that what it calls its "special military

operation" in Ukraine is going "according to plan." On 24 February 2022, Russia invaded Ukraine with around 190,000 troops.

Ukraine's Ministry of Defense has claimed that **12 Russian generals** and more than 50 colonels **have been killed** since the invasion began in late February (between 24 Feb to 8 May 2022). Today, 8 May, 73 days of war, Russia has lost:
